

# Low Profile IN BOX™ with Metal Box for New Vinyl Siding Construction

DSBHS1C

### IN BOX for new siding includes...

Metallic box with non-metallic, weatherproof-in-use extra-duty cover; installed bug plugs; (1) standard duplex and (1) standard GFCI face plate; and (1) set installation screws.

Scan For Video

Recessed, metallic electrical box with non-metallic, weatherproof-in-use extra-duty cover for new siding applications. Accepts most single gang wiring devices and uses standard indoor wall plates or a GFCI cover plate. Non-metallic portion and covers are UV rated plastic for long outdoor life.

### FEATURES AND BENEFITS

- IN BOX replaces the installation of an electrical box, siding block, and bubble cover assembly
- Installs in the wall, so less of it shows outside
- Outer flange covers cut ends of siding
- Install option: Cover is removable for easier device installation
- White, non-metallic portion and white cover are textured/paintable
- Grounding wire provided
- For use with metal raceway systems
