

Low Profile In Box® with Metal Box for New Construction Stucco, Textured Surfaces, & Rigid Siding

Recessed, metallic electrical box with non-metallic, extra duty weatherproof in use cover for stucco over masonry or wood construction. Also for cementitious/fiber rigid lap siding. Accepts most single-gang wiring devices and uses standard indoor wall plates or a GFCI cover plate. Non-metallic portion and covers are UV rated plastic for long outdoor life. Compatible with DBVC and DBVW extra duty replacement covers on K-17.
