DIVIDERS**

**INSTALLATION INSTRUCTIONS**

1. Set concrete floor box into position. Secure in place through molded mounting ears.  
*Option: Use 1/4-20 screws to level/position box.*
2. Install conduit as needed using PVC cement. Pull wires through conduit as required.
3. Install plugs (provided) with PVC cement to seal unused openings.
4. Install pour cap. Pour concrete to finished depth.
5. After concrete has cured, remove pour cap. Use saw to cut box to finished floor height.
