# SNAP-TITE® Transition Fittings

*Allow Cable, Conduit Installation in Tight Spaces*

**2450ST**  
**SNAP-TITE®**  
Transition  
Fitting

Arlington's **SNAP-TITE® Transition Fittings** offer the time-saving solution for installing *additional* conduit or cable in an already congested panel.

Adaptable 2450ST series transition fittings allow installers to work around tightly spaced, *installed* fittings in a panel, box or enclosure – where installing *and tightening* additional locknut fittings would be difficult.

### Convenient, Time-Saving

**2450ST** snaps into a 1/2" knockout and connects standard 1/2" trade size threaded fittings or threaded pipe.

*New sizes fit 3/4" and 1" knockouts and 3/4" and 1" trade size threaded pipe and threaded hub.*

- Use in Dry Locations Only
- cETLus Listed

**2450ST**

Threaded  
fittings

**2450ST**

Threaded  
pipe
