Fan/Fixture Box Kit for Suspended Ceilings

Lower Installed Cost • Heavy-duty Plated Steel

Designed just for mounting a fan or fixture on a suspended ceiling grid, Arlington’s FBR5420SC fan/fixture box kit saves money, and 30 minutes of installation time!

The box/bracket assembly ships with box mounted firmly on-center. There’s no need to adjust the box or bracket if the box is installed in the center of a ceiling grid.

There are no parts to lose! FBR5420SC ships fully assembled. Installation screws ship parked in place.

- 2" deep, 20.0 cubic inch box
- Meets new UL standards
- UL rating: 70 lb fan or fixture
- CSA: Acceptable for fan support

Kit includes box/bracket assembly with turnbuckle, 12" heavy-duty chain, and (2) "S" hooks.
Fan/Fixture Box Kit for Suspended Ceilings

Ships Fully Assembled • Fully Adjustable Mounting Bracket

Kit includes box/bracket assembly with turnbuckle, 12’ heavy-duty chain, and (2) “S” hooks.

1. Cut a 4-1/16” diameter hole in the center of a 24” ceiling tile.

2. Place box over hole. Snap plastic ends of support bar over the ceiling grid (tees).

3. Use the “S” hooks provided to attach chain to turnbuckle, and chain to the overhead support. Use turnbuckle to apply tension to the chain, so it supports the weight of fan.

4. Remove captive screws (shown above). Use them to install the fan or fixture per manufacturer’s specifications, NEC and all local electrical codes.

Option for ceiling tiles that extend past the bottom of the grid:

- Cut the plastic ends of each leg of the support bar.

Cable pulled through installed NM cable connector.

FBRS420SC
Patent pending

Adjustable mounting bracket

Note: To mount box off-center, loosen screws. Slide box into position.

Captive installation and adjustment screws

20.0 cubic inch capacity
