

# Cable Hooks for Communications Cable

*in Plastic and Steel • Stackable for added convenience*

### Two Ways to tie down cable

**Steel CHS1 Works with Threaded Rod**

Arlington's Cable Hooks are the super convenient solution for running communications cable.

Available in heavy duty **Plastic** and **two styles in Steel**, these cable hooks have features that can handle any condition encountered on the job.

- 25 lb Support Rating
- Listed for use in air handling spaces per NEC 300.22 (c)
- Supports up to 90 Cat 5e cables with the center radius of the bundle spread over the 2" opening
- Maintains integrity of high performance data cable
- Stackable - in parallel or perpendicular orientation for vertical support of multiple tiers of cable
- Easy to attach to various supports, beam clamps and strut – usable on large panels to ensure proper bend radius

Non-corrosive **plastic CH1**...

- Listed for flexible metal or flexible non-metallic conduit (up to 1-1/4" trade size)

Catalog Number	UPC/DEI/NAED Mfg. #018997	Description	Unit/Std Pkg
CH1	10950	Plastic cable hook	50
CH1M	72172	Steel cable hook	50
CHS1	72260	Steel cable hook with multi-directional mounting means	25

### Stackable for Multiple Cable Tiers... Parallel or Perpendicular Orientation
