Positions and protects cable

No tools! Arlington's new plated spring steel **Wire Clip** offers easy snap-on installation.

Snap the Wire Clip onto a sheet metal frame up to .080" thick. Then snap one or two USE-2, PV or other cables/cords securely in place. That's it.

- Wire Clip capacity:
ONE cable: min .160" to max .425"
TWO cables: min .160" to max .300"
- Smooth finish on clip prevents cable damage
- Locking tab secures clip onto sheet metal
- Easy, time-saving installation
