

STEEL Recessed TV Box for Use with Metal Raceway

TV BOX

RECESSED POWER & LOW VOLTAGE COMBO BOXES

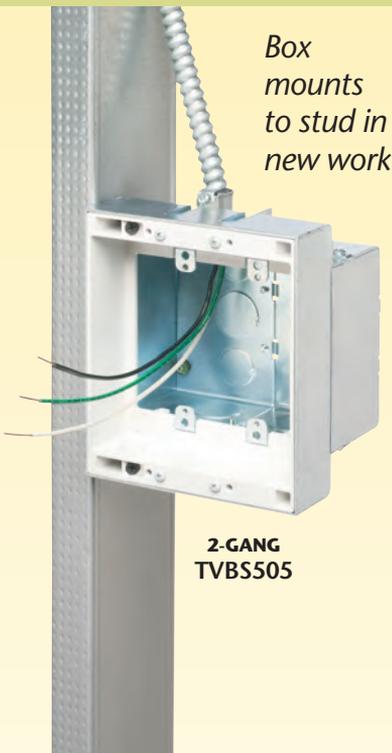

Designed for use in commercial and other construction where metal raceway is used, Arlington's STEEL combination TV BOX™ provides power and/or low voltage in one or more of the openings.

The recessed design of these steel boxes keeps plugs and connectors inside the box. Connections don't extend past the wall, so flat screen TVs mount flush against a wall.

TV BOX is available in 2-, 3- and 4-gang styles.

- Steel box with non-metallic paintable white trim plate
- Easy to install, secure installation
- Mounting wings on two- and three-gang styles hold boxes securely against the wall in retrofit projects
- Boxes screw-mount to stud in new construction
- Optional cover for unused boxes
- cULus Listed

Recessed Power and Low Voltage Electrical Boxes for Flat Screen TVs

STEEL

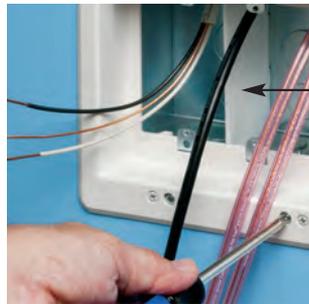

NEW & EXISTING CONSTRUCTION (RETROFIT)

Steel TV BOX™ Installation (2-gang TVBS505) – Existing Construction

Mounting wings hold 2- and 3-gang boxes securely in wall.

1 Cut hole. Use enclosure (without trim plate) as a template.

2 Pull cable. Insert box in hole. Tighten mounting wing screws to hold box securely against wall.

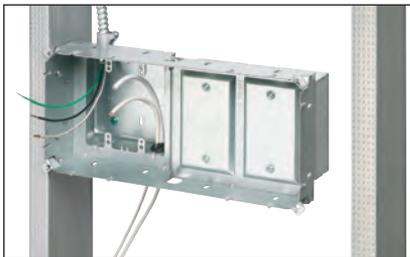

Note Install voltage separator for power and low voltage.

3 Install devices, then the wall plates.

Steel TV BOX™ Installation (4-gang TVBS613) – New Construction

1 Attach box to stud. Pull wire.

2 After drywall is installed, add trim plate, then install enclosure assembly to the wall with outer screws.

3 Install voltage separator.

4 Install devices and plates.
