Arlington’s recessed TVBUS05 non-metallic combination power and low voltage TV BOX™ is the secure, easy way to mount a flat screen TV flush against a wall. It features power in one side; low voltage in the other for Class 2 wiring of satellite or cable TV, speakers and more.

The job looks great! Plugs and connectors stay inside this two-gang box, without extending past the wall.

- Non-metallic box with paintable white trim plate
- Easy to install, secure installation in walls up to 1-1/2” thick
- Mounting wings hold box securely against the wall in retrofit projects
- Boxes screw-mount to stud in new construction
- Optional covers available for unused boxes
- Accommodates Arlington’s SCOOP™ series entrance plates and hoods
- Other styles available:
  - Steel boxes with plastic trim plate
  - Non-metallic boxes with ground clip (Canada)
- cULus Listed

Recessed Plastic TV Box™

**Power/Low Voltage Combination Box**

**RETOFIT** - Two-gang TVBUS05 shown

1. Use enclosure (without trim plate) as a template for opening. Cut hole.
3. Tighten mounting wing screws to pull the box securely against the wall.

**NEW CONSTRUCTION** - Three-gang TVBUS07 shown

1. Attach box to stud using #6 screws. Use tabs on box for proper positioning of box depth.
2. Positioning tabs are set for 1/2” and 5/8” drywall.
3. Attach paintable trim plate with screws provided. See below, left for reference.
4. OPTION for new work: Tighten mounting wing screws to pull the box securely against the wall.
